Activating Your Heart and Soul Connections with Animals

Greetings Sweet Souls,

Thank you for joining in on this journey together as part of the One Love Humanity Rebirth Awakening Summit.

Activating Your Heart and Soul Connections with Animals

is intended to provide an awakening into a deeper conscious awareness through your heart and soul connections with animals, and into what that means for you personally.

As an animal lover, you already know the profound connections animals reach deep into your heart.

Please Invite Your Animals to join us in this activation. They love to listen and participate in my classes!

The Spirit Animals Guides are saying to you now, *"Know that these connections go far deeper than your human existence. You are a Soul living in a human body. We the animals come here in the physical plane to open your hearts into the stars of your dreams so that you know the depths of the Love you are capable of experiencing, and so that you know this depth of connection is possible for you with all Humans, Nature, your own Soul and Source, Connected All Together.*

This is you remembering. This is an Activation of Your Heart and Soul Connections with Animals, Individually, and Collectively."

~ **The One Heart Counsel of Light**, A Collective of Light Beings

Sweet Souls...

...Meet *Mosha* the Elephant, living in Thailand as a permanent resident of the Friends of Asian Elephant Hospital. In this picture when I met her, she was 13-14 years old.

Mosha says to you now:

*"You are All Points of Light,
Connected as One Heart, One Herd."*

She is here to be one of our primary 'Activation Guides' on this journey.

Mosha's Story, from her point of view:

"I am wise beyond my physical years. I am here to be a special envoy, or messenger, to human souls helping them understand the plight of elephants, and to know we are souls connected as light beings."

At 7 months of age, I stepped on a landmine while following my mother. Humans like to lead with a description of me with my injury first. I understand that humans need to see the problems as headlines.

I am here to say we are much more than the problem. We are all Souls, here to learn. I am here to help you learn and experience we are all Points of Light, Connected as One Heart, and One Herd.

I have gained much attention from having stepped on a landmine, from losing half of my front leg. I am also the first elephant to receive a Prosthetic Limb. I am the perfect Elephant to teach and guide humans across dimensions.

I welcome you on this journey together."

Sandy Meets Mosha

In 2018 I was invited to go to the Friends of the Asian Elephant Hospital (FAE) with two colleagues, Anne Snowball and Helena Bresk, to use Tellington TTouch and BEMER with the three permanent Elephant residents, Motala, Mosha and Boon Mee.

Activating Your Heart and Soul Connections with Animals

Mosha was creating quite a ruckus next door while I was getting to know Motala on the first morning of our arrival to FAE.

Motala, the matriarch at 60 years old said to me, *“Do not be fooled by her shenanigans. Mosha is wise beyond her years. She has much to teach you.”*

Indeed she did have much to teach me, and she continues years later. Now, Mosha has asked me to be the voice to share our Journey with you, as an activation.

Mosha shares this with you:

“Let’s bring those together who might never have known one another, but belong together.

See you not from the stars afar.

*But See the stars shining lights from within.
Linking you to the stars and back once again.
Linking us altogether through our hearts,
through our minds, and through our thoughts,
through our Light Shining Bright.*

*Recognize the trumpeting calls to awaken your hearts once more.
Hear us Trumpet!
- And wake up!”*

*by Mosha the Asian Elephant from the Stars and Lampang, Thailand
“I am the First Elephant to receive a Prosthetic Limb
Injured by Man’s explosive way of experiencing separation from the Source
and planting land mines.”*

By the way, Mosha’s name means Star!

About where Mosha lives:

The Friends of the Asian Elephant Hospital (FAE), Lampang, Thailand

Established in 1993 by Soraida Solwala to nurture elephants that have been injured by landmines, traffic accidents, and for ill or abused elephants.

FAE has grown to a team with full time veterinarians, a team of 15 people, and has treated over 5,000 elephants for free since the start of FAE. Find them on Facebook.

You can learn more about Mosha, just Google Mosha the Elephant, she is quite famous with many articles written about her, and you can watch videos as well.

Photo above left to right:

Soraida Solwala, Mosha with one of her first Prosthetics, Anne Snowball

All the elephants at FAE adore Soraida.

Mosha says this about Soraida:

*"My Soraida has helped the world come to light,
to see the wrongness of this plight.*

*Bringing people together for the Elephants,
bringing light to their hearts,
showing the way through the Elephants plight,
bringing light to the land wars, our habitat shrinking.*

*What we the Elephants need, is what is needed for all.
We need our land.
We need one another.*

*Shine light for us all,
so that we may all see the truths within,
and act together.*

*Here is our Light,
Within each cell,
Shine bright so we may all see more clearly."*
